

## PRESS INFORMATION

July 2003

### NEW QUALITY ACCREDITATION FOR CATOMANCE

Catomance Technologies has become one of the first companies in its sector to achieve registration to the new quality standard ISO 9001:2000.

A supplier of speciality finishing agents to textile processing companies all around the World, Catomance was first registered to the old BS 5750 in 1987 and has continued to demonstrate its commitment to quality products and services.

Speaking after receiving news of the registration, Catomance's Managing Director Mike Woods said:

"We are very proud that Catomance has been recognised in this way. The new standard places greater emphasis on continual improvement and customer satisfaction. Customers are becoming more sophisticated, better informed and their expectations are growing. For any business, the only way to keep up is to offer a commitment to quality".
